Helping your child love books

You’ll find sharing books together is a great way to bond with your son or daughter and help your child’s development at the same time. **Give your child a great gift that will last for life—the love of books.**

Hearing loss ranges from partial to total deafness. Some children can hear better with a hearing aid, cochlear implant, or FM system. Others cannot. Hearing loss may last only a short time, or it may never go away. Some children are born with hearing loss. Others develop it later in life. These factors affect the challenges your child will face in learning to read.

Tips for reading with your infant or toddler

Each time you read to your child, you are helping her brain to develop. So read to your child every day. Choose books that you think your child will enjoy. Books that rhyme or repeat the same sound are good for helping your child learn the sounds letters and words make.

Since younger children have short attention spans, try reading for a few minutes at a time at first. Then build up the time you read together. **Your child will soon see reading time as fun time!**

Check off the things you can try:

- Read the same story again and again. This will help your child catch words he may have missed before. Explain the story as needed.
- Make sure your child can see your face and the pictures. This will help your child follow the story, even if he doesn’t catch all the words.
- Have your child turn pages, touch the pictures, and lift the flaps. This will give your child practice using his hands, which gets him ready to sign.
- Use simple sign language as you read.

Some suggested books for your infant

Choose board books with simple signs. Some titles include:

- *Baby Signs* by Joy Allen
- *My First Book of Sign Language* by Joan Holub
- Books by Annie Kubler such as *My First Signs* and *Sign and Sing Along*

Some suggested books for your toddler

- Books by Anthony Lewis such as *Meal Time, My First Book of Animal Signs,* and *Play Time*
Helping your preschooler or school-age child love books

When you read to your child often and combine reading time with cuddle and play time, your child will link books with fun times together. So continue to read to your child every day. Choose books that you think your child will enjoy and look fun for you to read.

Check off the things you can try:
- Read the same story again and again. This will help your child catch words he may have missed before. Explain the story as needed.
- Make sure your child can see your face and the pictures. This will help your child follow the story, even if he doesn’t catch all the words.
- Use stuffed animals to act out the story.
- Continue to teach your child to sign.

Some suggested books for your preschooler or school-age child
- *Each Peach Pear Plum* by Allan and Janet Ahlberg
- *Jamberry* by Bruce Degen
- *Sheep in a Jeep* by Nancy Shaw

How children can learn more about hearing loss
